

# OPTIMATIK

**Mission:** To increase safety, optimize and reduce the cost of internal fleet.

Optimatik created a complete IoT and analytics system for factories and warehouses. Indoor positioning solution with high level of accuracy, noninvasive to plant's infrastructure. Developed with Toyota, Opel & VOX.

Solution is quick & inexpensive to set-up, noninvasive to infrastructure, intuitive & easy to use, reduces intralogistics costs, improves safety, and increases productivity of fleet and crew.

**BOOK A MEETING**
